Professional Summary

Results-driven Software Engineer with hands-on experience in Angular and Java Full Stack Development. Skilled in building scalable web applications, developing RESTful APIs, and optimizing user interfaces through clean architecture and modern coding practices.

Technical Skills

Frontend: HTML, CSS, JavaScript, TypeScript, JSP, Bootstrap, Angular, RxJS

Backend: Core Java (OOP, Collections, Multi-threading), JDBC, Servlets, Hibernate (ORM), Spring (IoC, AOP, MVC), Spring Boot, REST APIs

Database: MySQL, SQL

Tools: Git, GitHub, Postman, Maven, Eclipse, VS Code, Agile, JIRA

Work Experience

Software Engineer

Aug 2025 – Present

Bursys Infotech India Pvt. Ltd.

Panchkula, Haryana

- Contributed to **Field Equip**, a cloud-based Field Service Management (FSM) platform connecting customers, technicians, and service providers.
- Developed and enhanced Angular modules such as **Field Ticketing**, **Asset Management**, **Workflow Automation**, and **Work Orders**, integrated with REST APIs for real-time data rendering.
- Implemented features like **offline ticketing**, **asset tracking**, and **remote scheduling**, improving technician productivity and response time.
- Collaborated with UI/UX designers to create responsive, cross-platform user interfaces following best UI design patterns.
- Optimized application performance using RxJS, lazy loading, and reusable components, reducing ticket-processing time by 30% and improving platform adoption by 20%.
- **Tech Stack:** Angular, TypeScript, HTML5, CSS3, Bootstrap, RxJS, REST APIs

Projects

Job Connect – Job Portal Web Application [API] [UI]

Jul 2025

- Developed a web application for managing job postings, applications, companies, and applicants, featuring a robust backend system and an interactive Angular frontend.
- Implemented role-based architecture by mapping users with applicants and companies for secure access control.
- Simplified hiring workflows and application management, improving data consistency and scalability.
- **Tech Stack:** Java, Spring Boot, REST APIs, Angular, MySQL

Student Orbit – Attendance Automation System [API] [UI]

Mar 2025

- Developed a Spring Boot-based REST API and Angular frontend for automated student attendance tracking.
- Enhanced backend performance by 30% through optimized Hibernate queries and efficient API design.
- Impact: Eliminated manual attendance, improving accuracy and operational efficiency by 60%.
- **Tech Stack:** Java, Spring Boot, REST APIs, Angular, MySQL

Education

Lovely Professional University

Aug 2019 – Sep 2023

Bachelor of Technology in Computer Science and Engineering

Jalandhar, Punjab

Certifications

Full Stack Java Development – The Kiran Academy

Aug 2024 – Mar 2025

The Complete Angular Course: Beginner to Advanced – Udemy

Aug 2025
